Parent Name:			

You (parent/guardian) have the right to determine what, if any, BabyNet system services are provided to your child. No BabyNet system services will be provided unless you are informed about them, agree to them, and indicate your consent in writing.

Developmental screenings (including vision and hearing) are needed in order to determine need for additional evaluation and/or assessment. Evaluations and assessments give a more comprehensive view of how your child's health and developmental status.

Evaluations and assessments may be needed to:

- Determine if your child is eligible for BabyNet system services; and/or
- Guide development of an Individualized Family Service Plan (IFSP). The IFSP is a written plan developed in partnership with your family and multidisciplinary team members to meet the ongoing needs of your child and family while you receive BabyNet services.

The screening, evaluation and/or assessment process may include review of medical/developmental records, parent interview, child observation, and administration of developmental tools. Your Intake/Service Coordinator will talk with you about these methods. Any information gathered will be kept in your child's BabyNet record and will remain confidential.

Please check the boxes and sign below to give permission for these services.

☐ I give permission for BabyNet to conduct developmental screenings, evaluations and/or other assessments required to determine eligibility for BabyNet services and to develop an Individualized Family Service Plan (IFSP).

☐ I have received a copy of the BabyNet *Notice of Child and Family Rights in the BabyNet System*. These rights have been explained to me and I understand them.
